## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Dave Ghatt on August 3, 2009.

The application has been amended as follows: on lines 4 and 8 of claim 12 delete "-like". On line 4 of claim 16, "-like" has been deleted.

### ***Allowable Subject Matter***

1. Claim 12 and 14-19 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 12 and it dependent claims, the prior fails to disclose bioreactor arrangement comprising an axially elongated housing comprising a middle neck portion having a funnel-like shape wherein a mid-housing section is attached to the top housing section via the middle neck section ; a lower neck portion wherein a cylinder lower housing extending below the mid-housing is attached to the mid-housing via the lower neck portion , the cylindrical lower housing section having a third diameter smaller than

the one or more diameters of the top housing section wherein the bottom of the lower housing form a test chamber.

The closest prior art to the applicant claimed invention is Pilkington et al (US 2003/0153059).

Pilkington discloses a bioreactor having a top section having one or more diameters; a middle neck portion having a funnel-like shape, a mid-housing section extending below the top housing section and attached via the middle neck portion and a lower housing portion (see fig 5.1 R1 and R2; fig 5.2 and 5.3). Pilkington fails to disclose that the lower housing section is attached to the mid-housing section by a lower neck portion shape like a funnel and that the lower housing is cylindrical wherein the bottom of the lower housing forms a testing chamber. Additionally the Pilkington reference fails to disclose one or more slide positioned within the mid-housing section.

Other related priors art are Peyton (US 5,641,642), Wolfson (US 3,198,005), Gaugler et al (US 6,432,698) and Trevarrow (US 4, 561, 815).

None of the prior arts above alone or in combination discloses the bioreactor as is disclose by the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
